The college supports opportunities for students to expand academic horizons from global education experiences. Whether domestic or international, global experiences can have a profound impact on a student’s future.

We have more than 20 faculty-developed international experiences to countries including Costa Rica, Dominican Republic, England, Germany, Italy, Ireland, Mexico, Spain, Southern Africa, Tanzania and Taiwan.

HISTORY & MISSION

Established in 1969, the College of Education and Human Development at Texas A&M University is committed to preparing educators, practitioners, leaders and research scholars in the fields of education, health, sport, government and business.

The preparation of leaders requires expertise in knowledge, professional practice and a breadth of experience in working with individuals from diverse backgrounds. Our faculty and students reflect the diversity and complexity of the state, nation and global community to better serve the ever-changing needs of society.

Faculty, staff and students work to enhance education and health outcomes for all through teaching, research and outreach activities. The college also strives to provide innovative professional training to its students so they can prepare our future leaders, solve many of our social issues and contribute to the knowledge base of our professional field.

We transform lives.

GLOBAL EDUCATION

The college supports opportunities for students to expand academic horizons from global education experiences. Whether domestic or international, global experiences can have a profound impact on a student’s future.

We have more than 20 faculty-developed international experiences to countries including Costa Rica, Dominican Republic, England, Germany, Italy, Ireland, Mexico, Spain, Southern Africa, Tanzania and Taiwan.

CERTIFICATION

In 2013-2014, 909 teaching certificates were issued through the college.

CEHD is ranked #1 among colleges and universities in Texas for producing the largest number of teachers in the high-need fields of math and science and are among the top five in special education.
